

ONE VILLAGE

Family Engagement Worker

The One Village Collaboration aims to improve outcomes for Aboriginal and/or Torres Strait Islander children and families in Greater Shepparton by increasing engagement and participation in key primary services.

What the One Village Family Engagement service provides:

The service supports Aboriginal and/or Torres Strait Islander families to connect with the Maternal & Child Health Nurse Service, Playgroups, Kindergartens and Primary Schools with support from the **Family Engagement Worker**. The Family Engagement service role is to link families to the appropriate services and identify any barriers that families may be experiencing. The Family Engagement Worker is not a Case Manager, but may refer disengaged families to appropriate services for additional support.

Who is eligible for this service?

This service is available for Aboriginal and/or Torres Strait Islander families who are finding it hard to attend the Maternal Child Health Nurse Service, Playgroups, Kindergartens or Primary Schools in Greater Shepparton.

Is a referral needed for this service?

Referrals, with parental consent, are accepted from Health Care providers, Early Childhood organisations and Local Community Agencies. Parents may also self-refer.

Who do I contact for further inquiries?

Amy-Kate Ph: 0437 905 218
